Survey on Senior Secondary Subject Information 2024/25 Part II: WebSAMS Survey on Senior Secondary Subjects Taken by Students

Guidelines for Conducting the Survey in WebSAMS

<u>Part I</u>: Introduction

- The "Survey on Senior Secondary Subject Information: 2024/25 School Year" (Part II Survey), short named as Survey below, aims at collecting information on the senior secondary (SS) subjects taken by <u>S4 and S5 students</u> in the 2024/25 school year. Schools are required to report to the Education Bureau (EDB) the SS subjects taken by students <u>as at 10 October 2024</u> (Reference Date).
- The EDB will send a parameter file to school WebSAMS on <u>10 October 2024</u>. The description of the message (CDS) is "Survey on Senior Secondary Subject Information 2024/25 (Part II Survey) Parameter File". <u>School has to first import the parameter file in the "Data Communication" of the Student module</u> before the Survey can be conducted in the "Subject Survey", one of the sub-modules of the Student module.

3. The Survey aims at collecting data of SS subjects (<u>Annex</u>) taken by each S4 and S5 student in the 2024/25 school year and supplementary information for the following subjects.

Subject	Subject Code	Remark (supplementary information)
Chinese Language	080	 Offered for students taking HKDSE Examination [Default value]
		- Offered for students not taking HKDSE Examination
Design and Applied Technology	31N	- Offered by own school or through Network
Music	21S	Programme
Visual Arts	83S	- Offered by ATEC

- 4. The subject data are extracted from the students' subject set up in the Student module and the class-based compulsory subjects set up in the School Management module (<u>Only subjects with EDB-defined subject codes will be captured</u>). While preparing the survey return, please note the following:
 - Please provide information on all SS core and elective subjects from the Key Learning Areas, and Other Languages taken by each student (including subjects offered through "Network Programme(s)" or by "Arts and Technology Education Centre (ATEC)").
 - Please note that it is <u>NOT necessary</u> to add enrolment information on **Applied Learning** courses for this Survey if the school has not assigned Applied Learning courses to students in the Student module.
 - Please note that for the subjects *Ethics and Religious Studies*, *Music*, *Visual Arts* and *Physical Education*, there is a code for the SS elective subject (i.e. an elective subject that leads to the Hong Kong Diploma of Secondary Education (HKDSE) Examination), and another code for the subject <u>not</u> leading to the HKDSE. Please use the "HKDSE" subject code if the student studies the SS elective subject. The relevant codes are listed as follows:

<u>Code</u>	<u>Subject</u>
41N	Ethics and Religious Studies (HKDSE)
21S	Music (HKDSE)
83S	Visual Arts (HKDSE)
41S	Physical Education (HKDSE)

School should send the Survey return to the EDB through CDS

on or before 12 November 2024. Resubmission of data file is allowed before the deadline.

<u>Part II</u>: Prerequisites

- **1.** Please upgrade WebSAMS to Version 3.1.19 or above.
- 2. The EDB will send a message with a parameter file (STSURVEY.DAU) to school on 10 October 2024 for conducting the Survey. The file will be decrypted automatically in the CDS module. School has to import the file in the "Process Incoming Data" page in "Data Communication" of the Student module before the Survey can be conducted.

Pre-task

- 1. What can we do if we have not received the parameter file from the EDB?
 - A: The parameter file would be sent to school on 10 October 2024. Please check if the CDS connection works by sending WebSAMS version or call the CDS helpdesk on 3464 0550 for support, if necessary.
- 2. What can we do if the CDS message cannot be decrypted automatically?
 - A: The Common Key may be corrupted. Please contact the CDS helpdesk for support.
- **3.** What can we do if we cannot find "Process Incoming Data" in the "Data Communication" and "Subject Survey" of the Student module?
 - A: Check if the location access right is granted for the case when working outside the WebSAMS LAN.
 [Path: Security > Access Control > Location Access Control]

Prepare Survey Data

- **4.** If the school has not set up the subject for the students in the School Management module, what can I do?
 - A: The school can add the subject(s) to the students using the "Add" subject function in the "Subject Survey" sub-module. The record added will be only for the Survey.
- 5. I cannot find the subject in the drop-down menu for adding the subject to the student.
 - A: Check whether the status of the subject code is active in the Code Management module. Change the status of the subject code from "I" to "A".
 [Path: Code Management > Maintenance > Subject]
- 6. Why does a student not have a subject which should have been assigned to him/her?
 - A: (1) Check whether the code of the subject is a school-defined one. If yes, it will not be captured for the Survey. Please note that the "Subject Mapping" in the School Management module is not applicable to the Survey.
 - (2) If the code of the subject is EDB-defined, check whether the subject has been assigned to the student. [Path: Student > Subject Setup]
- 7. What subject code for *Mathematics* should I choose if a student is taking both the Compulsory Part and the Extended Part?
 - A: (1) If a student is taking the M1 in addition to the Compulsory Part, please choose "code 22S" (Compulsory Part) and "code 23S" (Extended Part – Module 1).
 - (2) If a student is allowed to study the Extended Part without specifying M1 or M2, with the intention that they will specify it later, please choose "code 22S" (Compulsory Part), "code 23S" (Extended Part – Module 1) and "code 24S" (Extended Part – Module 2).

8. What can I do if I find this error message when preparing the data file?

- A: The message informs you that there is a student without STRN. If school has already sent Form C for the student, please contact the School Places Allocation Section of the EDB on 2832 7740 for the STRN of the student.
- **9.** What do I need to do when I see the following warning message after I have prepared the data file?
