

System Security Setting Checklist for WebSAMS

(in English version only)

Note: This checklist is for schools' regular checking of their WebSAMS system security settings to ensure system and data safety. Schools are recommended to conduct the checking on a regular basis as well as a need basis (e.g. on a half-yearly basis and/or after a change of key supporting staff). Schools are NOT required to submit this checklist to the EDB and they are advised to properly keep the completed checklist for record purpose.
