

Installation Guidelines

for

Crystal Reports Designer 2020

Version 1.2 Jul 2022

Distribution of Controlled Copy			
Copy No.	Holder		

The purpose of this document is to illustrate how to install Crystal Reports Designer 2020 on Windows platform.

Crystal Reports Designer 2020 should be installed to replace the existing report designer on client workstation (i.e. Desktop or notebook computer). It SHALL NOT be installed in the WebSAMS server.

Full system backup of the client workstation should be performed <u>before</u> the installation of the Crystal Reports Designer 2020. System fallback can be done by restoring from the backup when required.

SAP_Crytal_Report_CR202001P_200-70005715.EXE

Step 1: Right-click SAP_Crytal_Report_CR202001P_200-70005715.*EXE* and click "**Run as administrator**". The installation process requires administrator rights to update some system files. Upon execution on SAP_Crytal_Report_CR202001P_200-70005715.*EXE*, it will self-extract archives as in the screen capture below.

Extracting dunit \connectivity.connectionserver.drivers.hive.odbc.common.config-4.0-nb-nu \content.msi Extracting dunit \connectivity.connectionserver.drivers.hive.odbc.common.config-4.0-nl-nu \content.msi Extracting dunit \connectivity.connectionserver.drivers.hive.odbc.common.config-4.0-pl-nu \content.msi Extracting dunit \connectivity.connectionserver.drivers.hive.odbc.common.config-4.0-pl-nu \content.msi Extracting dunit \connectivity.connectionserver.drivers.hive.odbc.common.config-4.0-pl-nu \content.msi Extracting dunit \connectivity.connectionserver.drivers.hive.odbc.common.config-4.0-pt-nu \content.msi Extracting dunit \content.msi Extracting dunit \content.msi Installation progress	\connectivity.connectionserver.drivers.hive.odbc.common.config- \content.msi	4.0-ko-nu	^
